

# May Designated as Alcohol/Drug Awareness Month

HEBER CITY—Wasatch County Commissioners have declared the month of May as Wasatch County Drug Awareness Month.

With this declaration, there will be activities scheduled for families by the Alcohol and Drug Program, in Heber City, to acquaint local

residents with these problems. There will be benefit movies, a car smashing, a graffetti party, and a bumper sticker campaign.

"Hopefully during this month we'll be able to reach most of the people in Wasatch County with a message concerning alcohol and drug prevention," stated Coral

Mangus, prevention specialist at the City/County Center.

The Prevention Program has been working strongly in Wasatch County. The program has been involved with every school, with classroom activities for Kindergarten to Seniors. The presentations were to help students overcome peer group pressure, gain self-help skills, and find other motivating activities.

The Center has also provided activities for those who have come to the center seeking help on their own. A snowmobiling party was held at the State Park, which taught many of the kids that to have fun, they don't need drugs. This special trip was paid for by a private contribution.

The program has conducted a survey, which pointed out some areas which schools, community, and parents should be aware of.

A task force was organized after the showing of "The Chemical People" was shown on KUED.

This task force consists of Mike Bean, Lance Gardner, Mike Akagi, Karolyn Wall, Craig Ford, and Maxine MacAffee. This is the group which will be conducting the activities of the month.

The understanding and study of Alcohol/Drug Abuse was pointed out strongly to a group of students who attended a state conference on the subject. From that, Betty Jo Smedley, was selected to attend the National Conference in Washington, D.C., and was later selected to become an instructor during the next conference.

Religious organizations have been conducted, and messages delivered. These will be distributed throughout the month of May. Religious leaders have endorsed the month, calling it an education for everyone.

With the months activities being planned, anyone being interested in helping should contact Coral at 654-3003.

Betty Jo Smedley, Diana Clark, Tom Daniella, and Prevention Specialist Coral Mangus, are seen here with Television star Jill Whelan.

Students who attend the Drug Prevention conference at Salt Lake are seen here with Governor Scott Matheson. They are: Betty Jo Smedley (left), Gov. Matheson, Diana Clark, and Tom Daniella.
